 10 Bottles (inc box) **7.0kg** size **340x255x140**

Product description

Developed for general high volume use, where there is a constant need to wash hands hygienically without water. Handy wall and bed holder are available.

Product over view

The only non-alcohol foaming handsanitiser, that's kind to your hands, 100% organic yet so powerful it kills Clostridium Difficile spores (something no alcohol product will do) together with MRSA and other life threatening pathogens, and it continues to be effective under soiled conditions. STERI-7 Hand sanitiser can be used as a substitute to soap, with running water making it ideal for Kitchens, Wash rooms and the Healthcare environment.

STERI-7 is a high level, broad spectrum sporicidal handsanitiser, dermatologically tested and proven in extensive laboratory tests to kill the most life threatening pathogens, this includes MRSA Clostridium Difficile Spores, E.coli and Salmonella

It remains active for up to three hours. This is because of an innovation called Residual Barrier Technology (RBT).

**KILLS PATHOGENS
99.9999%**

STERI-7 kills pathogens 99.9999% at the point of application and continues to protect for up to 3 hours

Technical information

Active Ingredients, Didecylidimethylammonium chloride : 2,4%

Precautions

Do not spray in eyes or use with any other product, for external use only

Conforms to

BS EN 1500, 12054, 13704, 13727, CIBA certified for residual activity.
