

**NEW
GENERATION**
CLEANER WITH
RE-ACTIVE BARRIER TECHNOLOGY

**You cleaned
her room
an hour ago.
So why is
it infected
with
MRSA?**

For Care Home Managers like yourself, keeping your floors, surfaces and residents' rooms clean and hygienic is a full time operation. You know that if you don't wash and wipe almost continually, your spotless operation can become a breeding ground for germs, bacteria, spores and viruses.

But did you also know that with most cleaning products, frightening levels of re-infection can occur in less than thirty minutes?

We believe that the only way to keep your business truly clean is to use STERI-7, a specialist broad-spectrum biocidal cleaner. STERI-7 uses a unique Reactive Barrier Technology that keeps killing pathogens between cleans, protecting floors and surfaces 24/7.

STERI-7 gives you the peace of mind that comes from knowing that both your residents and staff have got the best biocidal protection on the market.

STERI-7 wipes out **MRSA: Clostridium Difficile:** Salmonella: E.Coli:
TB: P.Aeruginosa: E.Hirae: Proteus Vulgaris: Bacillus Subtilis: Bacillus
Cereus: Hepatitis C: NDV (avian flu): Influenza: Sars: Aspergillus Niger
and Candida Albicans.
