

**KILLS
INFLUENZA A H1N1**

It might just save your bacon.

STERI-7 is a high level, broad spectrum biocidal cleaner, proven in extensive laboratory tests to kill even the most life threatening pathogens including Influenza A H1N1, Clostridium Difficile spores and MRSA.

Using a unique innovation known as reactive Residual Barrier Technology (RBT) it remains on the surface and reactivates in the presence of any moisture, killing pathogens subsequently introduced with a simple wipe of a damp cloth.

Developed for use on hard surfaces such as worktops, floors, walls, doors, and sinks, it's also been used successfully in fogging machines and hot water extraction machines for the cleaning of carpets and curtains.

KILLS PATHOGENS 99.9999%.

Spores: C.DIFF, Bacillus subtilis, Bacillus cereus. Viruses: Hepatitis C, NDV (Avian Flu), Influenza A H1N1, SARS. Bacteria and Mycobacteria: MRSA, Salmonella, E. Coli, TB (mycobacterium), P. Aeruginosa, E. Hirae, Legionella. Fungi & Yeasts: Aspergillus Niger, Candida albicans.
